- the assessment is based on the relationship between the candidates' work-related qualities and the qualities genuinely required to perform the relevant duties
- the assessment focuses on the relative capacity of candidates to achieve outcomes related to the relevant duties

Cover Letter

A cover letter is a short letter that accompanies your resume when you apply for a role. It's often the first point of contact and can give a hiring manager a sense of who you are and highlights your skills and experience before they review your resume.

If requested, keep the cover letter to one page, include your personal qualities and skills, and tell us about who you are and why you are suited to the role!
