Hospital overview

Princess Alexandra Hospital (PAH) is a large 780 bed tertiary health care centre, providing care in most major adult specialties.

- We are nationally recognised for our expertise in trauma management and major organ transplants.
- We are one of Australia's leading academic and research health centres.
- Our nursing excellence is internationally recognised, and we are the only hospital in Queensland that has prestigiously been formally recognised as a Magnet organisation since 2004 by the *ANCC Magnet Recognition Program*[®].
- Continued Magnet Recognition ultimately recognises excellence in the practice of our 2,400 nurses, the delivery of high-quality care, support for personal and professional development, the supportive team environment and the commitment and passion to safe person-centred care.
