

Ward 5A/5B – Cardiac/CCU Logan Hospital Graduate Nursing Program

Unit Overview

Ward 5A and 5B Coronary Care Unit (CCU), is an integrated unit that combines the specialties of renal/cardiology and Coronary Care. The unit provides a telemetry service, elective cardioversion trans-oesophageal echocardiogram service and inpatient peritoneal and haemodialysis. The Chest Pain Assessment Service is attached to this unit. Ward 5A and CCU assists in dobutamine stress echocardiograms in the Cardiac Investigations Unit. Ward 5A and CCU also supports hospital needs by caring for patients under other specialty teams who are needing cardiac monitoring in a higher acuity setting.

Benefits of undertaking a graduate program in *Ward 5A / 5B CCU*

Telemetry and Cardiac Monitoring

Testimonials

“I really appreciated having someone to call for assistance or even just to ask questions without feeling like I was bothering busy staff. Nonetheless, everyone was incredibly friendly and I'm so grateful that I did my grad year in such a supportive environment!” - Bec

“During my graduate year it was great to have great preceptors and also working in a supportive environment” – Martha

“I started working in ward 3C which is now 5A and my graduate year I had good support and having supernumerary shifts within the ward allowed me to have a great start to my graduate year” - Maizy

Past *Ward 5A/ 5B graduates* are now working as

Amy- Clinical Nurse 5A

Bec- Registered Nurse 5A/5B

Martha- Clinical Nurse 5A/5B

Maizy Clinical Nurse 5A/5B

Naseera- Registered Nurse 5A/5B

Caitlin-Registered Nurse 5A/5B

Alyce- Clinical Nurse Chest Pain Assessment Service

Martin- Nurse Unit Manager 5A / 5B

Testimonials

“I love working in 5A and 5B as we see a variety of patients with different comorbidities, this allows me to gain a lot of experience in taking care of different conditions”- Naseera

“I loved my graduate year especially our study days and also getting to work with other graduates in my cohort” Caitlin

“The supernumerary time was valuable and allowed me to learn and working with preceptors was indeed valuable.” Amy

“I love working on 5A/5B as I work with an amazing team” Alyce
