### Testimonials

“I completed my 2<sup>nd</sup> 6 months of my graduate year in 6A and thoroughly enjoyed my time. Gained a lot of knowledge on different specialities as it is stroke, renal, geriatric and medical ward, It equips you with life long career skills. Staff are very willing to provide support and help you when needed” – Dim

“6A is great gateway to be introduced into hospital nursing. Plenty of support from the senior nurses and facilitators that helped in the easy transition from university to the actual work of nursing” - Toby
