

Our family is growing.

In the coming years we will be performing construction work to upgrade Logan Maternity. We thank you for your patience during this time.

What's happening?

We're upgrading Logan Maternity between over the next 2-3 years.

This construction project will include a refurbishment and expansion of the Maternity Ward, Birthing Unit and Special Care Nursery.

The new Logan Maternity will offer:

- » extra beds, birthing suites and birthing pools
- » better access and improved privacy
- » dedicated spaces for partners, visitors and families.

What can I expect?

Our staff will work closely with the builders to minimise any impacts on you when you visit us.

However, if you're planning to give birth at Logan Hospital in the next 2-3 years, please be aware that you may experience:

- » construction noise
- » changes to entry and exit points
- » longer waiting times.

Our number one priority will always be to ensure you and your family feel welcome, comfortable and supported when you visit us.

Please speak to the staff if you have any questions or concerns.

We sincerely thank you for your patience while we deliver these improvements for our community.

Where can I get more information?

You can read more about the project or sign up for updates by visiting our website:
