

Against Gender-Based Violence

25 November – 10 December

What we know

1 in 3 women
experience
physical violence
by another person

1 in 4 women
experience physical
violence by an
intimate partner

On average, 12 women
a day are hospitalised
for assault injuries
due to domestic and
family violence

**In 2023, one
woman every 10
days has lost their
life to violence.**

The time for change is here and now.

Violence against women is preventable.

If you or someone you know is experiencing domestic and family violence, you can contact:
