

Works notice

28 JULY 2020

From late July 2020 for approximately 15 months, Logan Hospital will be constructing a new multi-level car park on the corner of Armstrong Road and Loganlea Road (off-ramp).

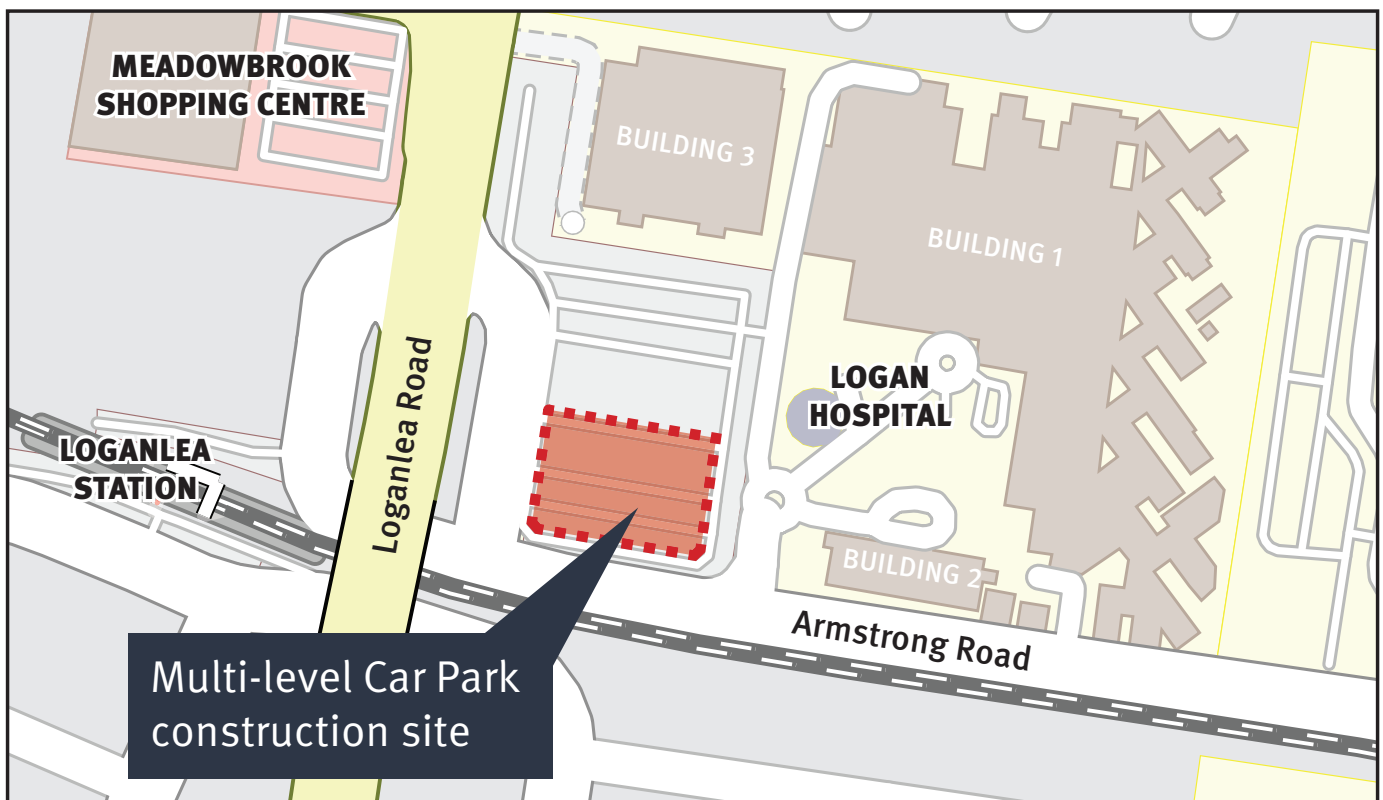

What impacts can I expect?

While every effort will be made to minimise disruption to residents, businesses and commuters during construction works, you may notice localised impacts such as:

- earthworks and general construction activities within the site boundary
- noise, dust and changed traffic conditions in and around the hospital site
- a tower crane in operation
- trucks entering and exiting the construction site.

Pedestrian and traffic changes

To facilitate construction, parts of Armstrong Road and the Loganlea Road off-ramp may be subject to traffic and pedestrian control at various times throughout the works. For the safety of motorists and pedestrians, please follow the instructions of traffic controllers at all times.

Thank you for your patience while we build this important infrastructure for our community.
