

**Logan Hospital**  
Intensive Care Unit

**Graduate Nurse Program**

**Hospital overview**

Logan Hospital is the major health centre for the Logan region—one of the fastest growing, and most culturally diverse, regions in Queensland. Our emergency department is one of the busiest in the state.

With a \$1 billion expansion program underway, you'll have all the benefits of working for a big, metropolitan hospital—while being part of a 'small town' team that values who you are and what you do.

Logan Hospital is:

- Part of a wider network—You'll have all the benefits of working for Queensland's world-class public health system including generous pay and salary packaging.
- A digital hospital—Clinicians have access to real-time patient information through digital workstations and high-tech patient monitoring devices.
- A place of opportunity—We want to empower you to build a long-term career at Logan Hospital, with countless opportunities to learn and grow.
- Ideally located—Make the most of Queensland's laid-back lifestyle with easy transport links to both Brisbane and the Gold Coast.

As a nurse or midwife at Logan Hospital, you can expect:

- a strong professional practice framework, with a focus on safety, culture, and teamwork
- modern and technologically advanced facilities with a fully digital health record
- a broad range of specialty services for both adults and children
- an organisation recognised internationally for nursing and midwifery excellence through the Pathway to Excellence Program.

**Graduate program overview**

Intensive Care Unit

**Transition Program – Intensive Care**

- Developed to provide a co-ordinated and consistent approach to the provision of clinically focused, post-registration continuing professional development to support the extension of theory to practice
