**When I began the research on Matron Florence Chatfield OBE in 2000, I found some interesting and admirable aspects of her life which reflected upon her contribution to the nursing profession. Among the articles found during my research were two photo albums with photographs of the early nursing staff at Diamantina Hospital. I also discovered a Grandfather clock in a Brisbane Antique Clock shop which was presented to Florence by the Diamantina Hospital Nurses on her retirement on 24<sup>th</sup> June 1934.**

**The clock was purchased by the Past Nurses Association of Princess Alexandra Hospital for the Diamantina Healthcare Museum.**
