

Logan Hospital
Medical and Surgical

Graduate Nurse Program

Hospital overview

Logan Hospital is located in one of the fastest growing regions in Queensland. Logan Hospital is currently a 425 bed secondary teaching that is undergoing expansion to accommodate the needs of its growing community.

As a teaching hospital, Logan Hospital helps train future health care professionals and participates in research through strong partnerships with Queensland's leading tertiary institutions.

In 2017 Logan and Beaudesert Hospitals became the first Network in Queensland to be Pathway designated by the American Nurses Credentialing Centre. Being a pathway designated facility means that as an organisation:

- We have pride in our profession
- Are internationally recognised for excellence
- Attract high quality applicants to our organisation
- Have high levels of staff retention
- Excellent patient satisfaction
