

Metro South Health and Private Health Services

Treating patients sooner

Metro South Health is the major provider of public health services in the Brisbane south, Logan, Redland Coast and Scenic Rim regions.

The demand for health services continues to grow as a result of the growing and ageing population and the impact of chronic disease.

To address this demand and to help our patients get treated sooner, Metro South Health has partnered with a number of private hospitals to offer public patients the opportunity to be treated at NO COST to the patient.

Our clinical teams at each of our Hospitals work closely with Mater Private Hospitals, St Vincent's Hospital and Canossa Private Hospital, to provide patients with specialist care and service from admission to discharge, as well as follow up medical and clinic care.

Speak to one of our friendly staff members for more information.
