

Princess Alexandra Hospital
Ward 1D Plastic Surgery/ Ear Nose and Throat and Maxillofacial Unit

Graduate Nurse Program

Hospital overview

Princess Alexandra Hospital (PAH) is a large 780 bed tertiary health care centre, providing care in most major adult specialties.

- We are nationally recognised for our expertise in trauma management and major organ transplants.
- We are one of Australia’s leading academic and research health centres.
- Our nursing excellence is internationally recognised, and we are the only hospital in Queensland that has prestigiously been formally recognised as a Magnet organisation since 2004 by the *ANCC Magnet Recognition Program*®.
- Continued Magnet Recognition ultimately recognises excellence in the practice of our 2,400 nurses, the delivery of high-quality care, support for personal and professional development, the supportive team environment and the commitment and passion to safe person-centred care.

Unit information

Ward 1D is a 26-bed surgical inpatient unit consisting of ENT, Head and Neck Surgery, Skull Base, Plastics and Reconstructive Surgery, Burns and Maxillofacial Surgery.

High standards of care

The ward is proudly committed to providing high quality patient-focused care utilising a coordinated multidisciplinary approach resulting in outstanding patient outcomes.

Program overview

Comprehensive education and development of our 1D graduates is supported by a dedicated nursing team including our Nurse Unit Manager, Clinical Nurse Consultant, Clinical Facilitator and Senior Nurses.

Clinical practice

Graduate nurses are supported to consolidate their skills by utilising:

- 1D learning pathway
- Nurse essentials training
- Specialist education packages

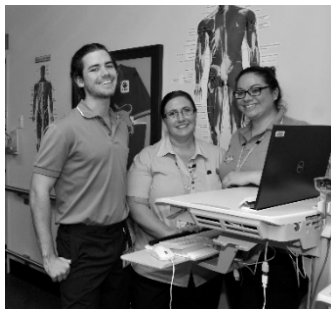

Quality care

Quality initiatives are encouraged and supported in line with the 8 National Safety and Quality Health Standards. 1D nurses are elected into a National Standards portfolio group based on individual interests and strengths.

Hospital Initiatives

- Magnet®
- Commitment to Reconciliation
- Digital Hospital
