

Queen Elizabeth II Jubilee Hospital
 Medical Services Ward 5B
 Acute Care Medical

Graduate Nurse Program

Hospital Overview

Queen Elizabeth II Jubilee Hospital (QEII) is a medium metropolitan adult facility with 181 inpatient beds. We provide a range of specialties including general medicine, surgical, cardiology, geriatric medicine, intensive and coronary care.

QEII is a *Pathway to Excellence*[®], organisation, which is a credential by the ANCC for hospitals that have created positive work environments where nurses can flourish. Pathway to Excellence recognition ultimately acknowledges QEII nurses' delivery of high-quality care, support for personal and professional development, the supportive team environment and the commitment and passion to safe person-centred care.

QEII became a Digital Hospital in June 2018.

Our activity

- 24-bed ward
- Acute medical patients
- Well supported with a preceptor, Clinical Facilitator and Nurse Educator

Our staff

Our dedicated and compassionate 5B nursing team is led by the Nurse Unit Manager and Nurse Team Leader and comprises a group of enthusiastic and highly motivated Registered Nurses and Enrolled Nurses. We are a diverse and inclusive team who respect and support each other and value the vital contribution of each team member.

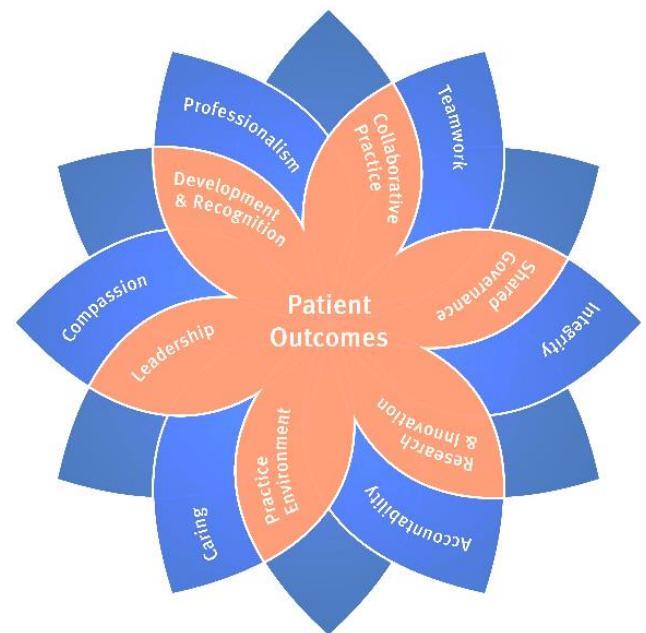

5B nurses work collaboratively with members of the multi-disciplinary team to provide safe, high quality, patient-centred care with the aim of achieving excellent outcomes for our patients.
