

Redland Hospital

Nursing and Midwifery Graduate Programs

Hospital overview

Redland Hospital is a 188 bed acute secondary teaching hospital. Redland specialises in integrated care with close and effective links with the local GP services and the community.

In the 2017 – 2018 financial year, there were:

- 54,571 emergency attendances
- 1,838 births
- 35,541 inpatient discharges
- 71,662 outpatient occasions of service

- There is a supportive clinical and educational environment that promotes competence and confidence in clinical practice
- Diverse clinical specialties from which to choose
- Multiple career development pathways with opportunities to progress and achieve your future nursing and midwifery career goals.

Testimonials

- “The graduate program at Redland Hospital has provided me with a strong knowledge base which allows me to feel safe in my practice, because I know that I am delivering up to date, best practice care for my patients.”
- “The graduate program at Redland has been invaluable to my learning, confidence and growth as a new grad RN. The staff are very supportive and assisted me during my transition to ensure that I can now confidently provide the best and most efficient patient care.”
- “The commitment to a graduate’s professional and personal development at Redland hospital is second to none. I feel incredibly honoured to be a 2018 graduate midwife.”
- “Redland Hospital is an amazing place to start your career. The staff are incredibly knowledgeable and helpful. It is like one great big family.”

How we support graduates

Graduate Co-ordinator – Nurse Educator:

- Redland Hospital has a graduate educator who works across Redland and Logan Hospitals to co-ordinate and manage the graduate program.

The Nursing and Midwifery Practice Development Unit (NMPDU)

- The NMPDU is committed to the development of all graduates. Educators and clinical facilitators work closely with graduates to support the transition from student to clinician.

Clinical Coaches

- Clinical Coaches are experienced nurses and midwives on the clinical floor who assist in the socialisation, learning and support of the newly employed.
