Communication

Interpreting Services

**Auslan Connections**
Auslan Connections is a specialist in the field of Auslan Interpreting and endeavours to meet the language requirements of each of our clients. Auslan Connections is a joint venture of Deaf Services and Expression Australia. A registered provider under the NDIS and a contracted provider of Auslan interpreting to the Queensland Government.

**NABS**
(National Auslan Interpreter Booking Service)
We provide Auslan interpreters Australia-wide for any purpose – medical and non-medical appointments. If you are not eligible for NDIS (National Disability Insurance Scheme), interpreting at private health care appointments are free. If you have an NDIS package and have interpreting in your plan, you can book an Auslan interpreter for any appointment or meeting. Your plan pays for the interpreter.

Facilitating Communication

**National Relay Service**
The NRS is a government initiative under Accesshub that allows people who are deaf, hard of hearing and/or have a speech impairment to make and receive calls.

More information and fact sheets on how to make a call through NRS is [here](#).

Health & Wellbeing

*Auslan Videos*
- What is Elder abuse?
- Enduring Power of Attorney and Elder abuse
- Signing documents
- Bladder and bowel control
- Healthy bladder and bowel habit
- Exercise to keep a healthy bladder and bowel
- How to sit on the toilet properly
- An Introduction into Dementia
- About Dementia
- Communication in a Dementia Way
- Practical suggestions for assisting people with Dementia
- Informed Consent in health care
- Hospital Welcome for Metro South Health patients

Instructional Resources

**Hearing Assistance in Aged Care**
An Instructional video designed to fit within a 30 min in-service session for continuing professional development purposes. Also available for pre-service training.
**Online training** - includes the above instructional video, incorporating multiple-choice quizzes. A certificate is available if completed satisfactorily. This online training is hosted by HEARnet Learning.

**Happy Hearing App**
For on-the-job reference to hearing assistance skills and information including that which is in the above instructional video. Available on Google Play for android phones and tablets; and in the App Store for iPhones and iPads.

**Hearing Matters Australia**
Hearing Matters Australia (HMA), formerly Self Help for Hard of Hearing Australia Inc., is a voluntary, non-profit educational organisation, dedicated to helping Australians with a hearing loss whose primary method of communication is through speech.

---

**Booklets**
A range of Deaf friendly educational booklets on Medication Safety, Domestic Violence, Alcohol, etc. are available to professionals (with an Auslan/English interpreter) when working with a Deaf person. Please email Deafness_MHS@health.qld.gov.au for more information.

**Article**
Hearing loss and dementia

*Denotes resources that are Deaf specific, using Auslan (Australian Sign Language) and may include closed captioning (CC) or subtitling.

Note
Captioning on the television must be always switched on to provide better access to information for people with a hearing loss.

The word ‘Deaf’ with a capital D, signifies people who are ‘culturally Deaf’ and communicate in Auslan (Australian Sign Language), and may identify as belonging to the Deaf community. English literacy often remains a barrier for Deaf people because their sentence structure, grammar and vocabulary is very different from English, and Auslan has no written form. Therefore, using Auslan interpreters and video clips in Auslan help facilitate communication.

The words ‘Hard of Hearing’, signifies people with a greater capacity to hear and/or may communicate through sign language, spoken language, or both and often have better English literacy.
